Status of the Claims

1. Claims 1-20 are pending in this application. An IDS was filed on 12/19/2003.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 14 is rejected under 35 U.S.C. 112, second paragraph, as being unclear when broadly claiming "an accurate arrangement" (this claim is objected for a typo error with "an arcuate arrangement").

Restriction/Election

3. The election to one of the following inventions is deemed necessary. The delay of this requirement is regretted by the examiner of the record.

4. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Group I: claims 1-10 are drawn to a method of operating (i.e., a method of use a feature, this is not necessary in a vehicle as claimed), US classifications 236/74R,78B.

II. Group II: claims 11-20 are drawn to a vehicle accessory control sensing unit (temperature sensors for vehicles), US classification 701/36.

5. The inventions (group I, and group II) are distinct by above definitions, each from the other because of the following reasons:

6. Inventions Group I and Group II are related as using temperature sensors in a control unit, and a method said sensor (this can be used in different environments, such as in a building); therefore, they are directed to 2 distinct fields of application.

7. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classifications, restriction

for examination purposes as indicated is proper.

8. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to CUONG H. NGUYEN whose telephone number is 571-272-6759. The examiner can normally be reached on 9:30 am - 5:30 pm.
